The **Buy Indian Act** and the **Indian Incentive Program** are Federal Government programs that are intended to create contracting opportunities for Native American and Tribally owned businesses. The ultimate goal of these programs is to create jobs, and expand the economies, for Native American communities.

And, did you know that Department of Defense (DoD) offers a 5% incentive payment to contractors that subcontract to Native American and Tribally owned businesses?

This session will help business owners understand how these programs operate and how to position your business to maximize the advantages.

Who should attend?

- Native American business owners/operators
- Tribally owned business operators
- Contractors doing business with DoD and interested in learning about the 5% rebate
